

Esb battery Haiti

What is the ESB battery storage project?

The project was implemented in partnership with Fluence and Irish companies Powercomm Group and Kirby Group. It is the start of four ESB battery storage projects that will include locations such as Inchicore, South Wall and Poolbeg.

Where are ESB batteries stored?

It is the start of four ESB battery storage projects that will include locations such as Inchicore, South Wall and Poolbeg. ESB's Aghadasite has a longstanding history of innovation, and its variety of efficient generation technologies continue to play a crucial role in achieving net zero emissions.

How does ESB's Aghada battery plant contribute to decarbonisation?

How does ESB's Aghada battery plant contribute to decarbonisation? ESB opened a major battery plant at Aghada, Co Cork in July. This battery plant will add 19MW (38MWh) of fast-acting energy storage to help provide grid stability and deliver more renewables to Ireland's electricity system.

When will ESB's Aghada battery project come on stream?

The second phase of the Aghada battery project is scheduled to come on stream in the coming years. This marks ESB's first battery projects in Ireland which is another important step on our Net Zero by 2040 journey. For more information visit:

Is ESB achieving net zero emissions?

ESB's Aghada site has a longstanding history of innovation, and its variety of efficient generation technologies continue to play a crucial role in achieving net zero emissions. The second phase of the Aghada battery project is scheduled to come on stream in the coming years.
