What is ESS funding?

Launched in 2015, ESS aims to provide funding support for local companies to conduct in-house research and development (R&D) work with a view to encouraging the private sector to invest in R&D. A company will be eligible to apply if it - is not a subsidiary of any government subvented organisation 12. Provides on a dollar-for-dollar matching basis.

What is the Enterprise Support Scheme (ESS)?

One scheme that became increasingly popular for startups over the last couple of years is the Enterprise Support Scheme (ESS). By staying diligent, and with a little bit of patience, companies can get large amounts of funding on a 50% matching basis. This means that for every dollar provided by ITF, the receiving company has to provide one dollar.

What is ESS & how does it work?

competitive analysis with similar offers in the market. The ESS is a funding programme under the ITF which is set up to finance primarily applied R&D projects that contribute to innovation and technology upgrading in industry. Hence it is crucial to provide sufficient information regarding the Project's contents in the following areas.
