

Who is ESS?

We are ESS, a leading implementation-focused advisory services firm delivering sustainable development in Africa and emerging economies. We support you to cost-effectively integrate key Environmental, Social and Governance (ESG) and sustainability considerations into your business model, on the ground in the countries where you work.

What services does ESS provide?

ESS has provided us with a number of valuable services spanning due diligence auditing, management systems as well as site-based HSEC support. They have helped us fill resource gaps by having a readily-available network of staff to support our project companies.

Why should you work with ESS?

ESS has helped us since early exploration to navigate community engagement and the ESIA process, while also managing health and safety in a remote area. We also like their commitment to using African team members. We look forward to continuing to work together. ESS has provided the Climate & Environment Team for the Programme since 2021.

Auswahl eines geeigneten ESS-Systems: Es gibt verschiedene ESS-Systeme auf dem Markt, daher ist es wichtig, ein System auszuwählen, das den Anforderungen des Unternehmens entspricht. Dabei sollten Kriterien wie ...
