

What is Mogobe Bess?

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based on the need for growth in power generation, our strong position in the country and our strong and competent local team,' says Scatec CEO Terje Pilskog.

What is Scatec's Mogobe Bess project?

"This marks a new milestone for Scatec in South Africa and for the renewable energy transition in the country. The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa.

Where is Bess located in Africa?

Replicating successes from our hybrid solar and battery storage projects at Kenhardt, we will proceed to construct one of Africa's first and largest standalone dispatchable BESS systems. The project is located near Kathu, Northern Cape, close to high power demand centres.

Does Scatec own Mogobe & Perpetua?

Scatec will own 51% of the equity in the project with Perpetua Mogobe (RF) (Pty) Ltd owning 46.5% and a holding company of the Mogobe Local Community Trust 2.5%. Scatec will be the engineering, procurement, and construction (EPC) provider and provide operations & maintenance (O&M), as well as asset management (AM) services to the project.

Scatec will hold a 51% equity share in the project, with Perpetua Mogobe (RF) owning 46.5%, and a holding company of the Mogobe Local Community Trust having the remaining 2.5%.

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based ...

reached financial close for the Mogobe battery energy storage system ('BESS') facility totaling 103 MW / 412 MWh and is now making final preparations to start construction of the project. Mogobe BESS was awarded a 15-year power purchase agreement (PPA) under the first bid window of the Battery Energy Storage Independent Power Producer ...

The two Projects that achieved Commercial Close today are Mogobe BESS and Oasis Mookodi. Mogobe BESS, with a contracted capacity of 103MW/412MWh will be connected to Eskom's Mogobe Substation close to Kathu in the Northern Cape province. Oasis Mookodi, with a contracted capacity of 77MW/288MWh, will be located
