What is Aurora solar?

We help power tens of thousands of solar projects every week towards our goal of making solar accessible for everyone. Aurora is the solar industry's leading software platform for PV sales and design, with over 20M+ projects designed in our software. #AuroraSolar #HelioScope

Does Aurora solar offer EnFin financing?

Thanks to Aurora Solar's platform, our Partner Installers can now seamlessly offer EnFin's competitive financing options to homeowners. This collaboration has significantly enhanced our ability to make solar energy accessible and affordable, empowering more homeowners to embrace clean energy solutions.

Why should you choose Aurora for your 3D Solar estimate?

Engage homeowners with an instant, personalized 3D solar estimate that builds your brand credibility and makes you stand out from the rest. Leading solar companies depend on Aurora to outpace the industry.

Why should you choose Aurora solar?

With just an address and electric bill, Aurora empowers you to generate a full, accurate, and customizable design for every customer--and close the deal on the spot. We help power tens of thousands of solar projects every week towards our goal of making solar accessible for everyone.

Why should PV installers use Aurora 3D Design Technology?

By integrating Aurora's powerful 3D design technology into their all-in-one platform, PV installers can easily create accurate designs using integrated LiDAR, and further automate their sales & administrative processes.

In Aurora, a project is defined as a unique address. Within each project, you can create multiple different designs. Follow the steps below to create a new project within Aurora.
