The vast majority of Eswatini's power supplies are imported from South Africa, which inhibits the country's potential to be economically independent and is less cost-effective overall. Plus, although Eswatini's electrification rates are relatively high, they are still a long way off 100% (the country's target for 2022).

Puerto Rico is a location that Fortress Power has taken under their wing to provide essential solar power storage solutions and ongoing preventive battery backup storages. Puerto Rico has seen an influx of natural ...

It has active battery cooling and heating whereas the Leaf does not. Leaf battery degradation has been reported in hot climates. The Leaf has less range but is more affordable. With regard to the title of the thread, I did have a home backup pack of used Leaf cells for a couple of years. I replaced them with EVE LF280sbtwo years ago.
