

What is the Gibraltar Electricity Authority?

Gibraltar Electricity Authority is an agency under the Government of Gibraltar responsible for regulating the Gibraltar electricity market. The authority was created on 28 March 2003 under the Gibraltar Electricity Authority Act 2003. Its responsibility is to generate, distribute and supply electricity to the civilian population of Gibraltar.

Does Gibraltar have electricity?

Until recently, Gibraltar's electricity supply was dependent on some 40 diesel-powered engines and turbines distributed across Gibraltar. In 2019 a new, modern power station situated at the North Mole commenced operation running long term on liquid natural gas (LNG).

How many power stations are there in Gibraltar?

There are currently three installations in Gibraltar producing energy. Two of these installations namely Waterport and OESCO power stations supply electricity to the civil population,...

Who is Euroenergy?

EuroEnergy is a renewable energy investment company with nearly two decades of experience and a growing presence in five countries -- Greece, Romania, Poland, Croatia, and Latvia. EuroEnergy is thrilled to announce the successful Energization of the Boguszyn project, a 20 MW solar park in the Boguszyn precinct in southwest Poland.

Why does Gibraltar need a new power plant?

This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.

Could energy storage batteries prevent future power cuts in Gibraltar?

PLANS to set up energy storage batteries at the North Mole Power Station could prevent future power cuts in Gibraltar. The ten new prefabricated
