Since the early 1900's, Eveready has been the go-to battery, powering household devices around the world. They now deliver their trust, reliability and affordability to the solar battery market with this revolutionary new product. solar battery is a powerful, yet affordable solution to your home energy worries. Don't be left in the dark again.

What is the Eveready Energy Vault?

The Eveready®; Energy Vault is a modular battery system, starting at 5.1 kWh of storage, expandable to a whopping 20.4 kWh. How can I manage my battery and energy usage? The use of an energy management system can help you monitor when you're using power from your solar PV system, from the battery and from the grid.

What is a solar storage battery?

The purpose of a solar storage battery is to keep the excess power your solar panels generate for another time when your household needs to most; maximising your household consumption of solar power. By using more of your solar you will be reducing your network costs, controlling when you use power and how much you pay for it.

Are solar batteries safe?

Yes they are. Although the solar battery industry is new, many of the companies manufacturing them have been working with batteries for countless applications since the invention of the battery itself. When installed by a certified solar technician you can have peace of mind your home and family are safe. Ready to buy?
