

Partiamo dal materiale attivo (Litio - Ferro - Fosfato), passando per la realizzazione della cella con un processo water-based, per arrivare al sistema batteria ...

Start-up of the first plant in Italy and Southern Europe for the production of lithium-ion cells, modules and battery packs. Circular Economy From raw materials to the recycling of end-of-life battery recycling.

Depuis 2000, FAAM est active dans l'application de la technologie Fuel Cell, tant dans le domaine des transports que pour les usages stationnaires, atteignant des objectifs importants dans la réalisation de véhicules à hydrogène, tels que le Smile Fuel Cell. ... Battery Management System) pour les applications automobiles, de traction et ...

Teverola 2 is the next step with a production capacity of >8GWh/year, including a pilot line for end-of-life battery recycling and active material recovery. The Teverola area will be the first technology cluster for lithium battery production in Italy and Southern Europe. The cluster is part of the IPCEI programme.

Thanks to the fully integrated supply chain, including a Battery Management System, FAAM brings to market a product able to guarantee superior performance by adapting to every customers' needs. FAAM has been at the forefront in the ...

Start-up of the first plant in Italy and Southern Europe for the production of lithium-ion cells, modules and battery packs. Circular Economy From raw materials to the ...

FAAM was founded in 1974 in the town of Monterubbiano (FM) as a brand manufacturer of energy storage systems. This historical experience in the sector allows us to offer Made in Italy products with very high energy efficiency. ...

What is the size of FAAM? FAAM has 273 total employees. What industry is FAAM in? FAAM's primary industry is Electrical Equipment. Is FAAM a private or public company? FAAM is a Private company. What is FAAM's current revenue? The current revenue for FAAM is . When was FAAM acquired? FAAM was acquired on 01-Jan-2013. Who acquired FAAM?

Partiamo dal materiale attivo (Litio - Ferro - Fosfato), passando per la realizzazione della cella con un processo water-based, per arrivare al sistema batteria inclusivo del nostro BMS (battery management system).

Powerful, safe and low maintenance, this type of battery is also equipped with the FAAM S3 - Stop Shock System, with which it passes the homologation tests of the leading automotive OEMs, as well as the tests required by EN standards. As with the GENIUS, thanks to the FAAM S3 system, the plates are blocked on

Faam battery Libya

both the upper and lower areas ...

FAAM, a battery maker based in Teverola, Italy, announced it will provide LFP batteries and BMS technology for a military submarine program. This will be a part of a development project for Italy's new submarine generation, the U212 NFS. According to OCCAR (an international defense equipment body), the test results of the lithium battery system

FAAM - Energy Saving Battery | 9.083 follower su LinkedIn. On the path to Energetic Transition | FAAM, controlled by Seri Industrial Spa, is specialized in the production and recycling of lead-acid and lithium batteries for traction, industrial, storage and military applications. Thanks to the fully integrated supply chain, including a Battery Management System, FAAM brings to market ...

FAAM's lithium-ion batteries are made with our in-House manufactured li-on cell with LFP cathode active material. Starting from the chemistry, going through the battery system, we are able to deliver the first and only full made in Italy lithium battery.

FAAM is building a Gigafactory in Teverola for the production of cells, modules, and battery packs for Electric Vehicle, Energy Storage, Industrial, and Special applications. ... We are looking for a Battery Designer with experience in the design of lithium-ion battery systems, who want to work with us in Teverola, Caserta, Italy.

FAAM sta costruendo a Teverola una Gigafactory per la produzione di celle, moduli e pacchi batterie per veicoli elettrici, accumulo di energia, applicazioni industriali e speciali. ... Siamo alla ricerca di un Battery Designer con esperienza nella progettazione di sistemi di batterie al litio, che voglia lavorare con noi a Teverola, Caserta ...

Cells The first cell made in Italy, in Lithium-Iron-Phosphate technology with water-based solvents, for maximum efficiency and sustainability. Key features 50 Ah / 160Wh pouch cell format 218 x 194...

We have been present in the battery market since 1974 with customised solutions and a complete Circular Economy model. We produce both lead-acid and lithium-ion batteries, with a strong focus on research and development.
