BYD Premium HVS. This series of batteries consists of battery modules of 2.56 kWh that can be connected in series with each other for a total number that can range from 2 to 5 modules, from 5.1 kWh to a maximum of 12.8 kWh per system.. Each of these can also be put in parallel with two other systems, thus generating an accumulation of 38.4 kWh.

The BYD BATTERY-BOX LV 5.0 is a lithium iron phosphate (LFP) battery pack for use with an external inverter. The communication with the inverter is established through the Battery-Box Premium LV BMU (Battery Management Unit).
