

# French Guiana have energy solutions

Is a solar park in French Guiana ready for green hydrogen production?

French hydrogen technologies developer HDF Energy (EPA: HDF), investment fund Meridiam and petroleum operator SARA have launched construction of a solar park with batteries and 16 MW of electrolyzers for green hydrogen production in French Guiana.

Who is Hawe Energy Solutions a/s?

HAWE Energy Solutions A/S, based in Albertslund, Denmark, was founded on March 16, 2022, and continues the FSE division acquired from Fritz Schur Technical Group. With FSE (formerly Fritz Schur Energy), the company focused its development and assembly activities on the needs of wind turbine manufacturers from 2002.

Where is Hawe Energy Solutions located?

HAWE Energy Solutions continues this business activity without restriction and combines it with its own modular system to provide customer-specific system solutions for brake control as well as pitch control. In addition to its headquarters in Denmark, the subsidiary also has its own location in the United States.

Who is the EPC contractor for Guiana fuel cells?

Siemens is the EPC contractor and is providing a two-year performance guarantee. Ballard is providing the fuel cells in collaboration with HDF, whose recent EUR132m IPO proceeds are to be partially spent on fuel cell production capacity - although this won't be up and running in time for the Guiana scheme.

How much does a ceog power plant cost in France?

As well as providing continuous electricity from renewable energy, CEOG will generate at cheaper prices than the country's diesel plants - diesel power there ranges between US\$450 per MWh to US\$600/MWh, according to a report by France's energy regulator CRE.

How do I contact Hawe energy?

If you are interested in our solutions or have any questions, please contact customerservice (at) hawe-energy.com. Find out more about how the modular structure of the hydraulic control system makes commissioning, maintenance and service easier.
