Hello-I'm wondering about a Grumman Sunstream Solar system, specifically what the expected life cycle is of this system. I'm also wondering about the piping schematic best suited for this system. Am I correct in understanding that the solar panels are constructed with aluminum instead of copper tubing? Is that a negative aspect of this system ...

Solar PV is the fastest growing renewable energy source in the world and is forecast to be the dominant source of renewable energy in the world by 2050. Here in Ireland, this may not necessarily be the case as our climate favors wind energy. Nevertheless, solar energy will make up a sizeable share.

Our Omni-Directional solar technology is the first of its kind, it does not need to be pointed at the sun to harvest maximum energy. Just place it outside and forget about it. Originally designed for military applications on moving vehicles. Eliminates the confusion typically required in positioning your panel for optimal sun capture, it works no matter what direction it is oriented.
