Green fuel energy solutions Lebanon

Why is green energy important in Lebanon?
Lebanon's large scale adoption of green energy will be an important stepping stone for rebuilding a sustainable economy based on a renewed respect for our environment and a better quality of life for our citizens.

Is Green Energy cheaper in Lebanon?
In Lebanon, green energy production is now four to five times cheaper than electricity produced by our current operated heavy-fuel power plants and two to three times less than gas powered plants (CCGT).

Can Lebanon's energy crisis lead to a green energy revolution?
The country imports 97% of its energy, all of which is fossil fuel. The country's current energy policy has become unsustainable, both economically and environmentally. Yet the current energy crisis offers Lebanon a unique opportunity to embrace a new energy model and to leapfrog into the Green Energy Revolution.
