Gresham House plc provides funds, direct investments and tailored investment solutions, including co-investment, across a range of highly differentiated alternative strategies. GHAM's expertise includes strategic public equity, private equity, forestry, housing, new energy and infrastructure.

The dynamics of the UK energy market are changing rapidly. Renewable energy's market share in the UK is forecast to double from 40% to 80% by 2050 as the country moves from relying on fossil fuels towards an energy mix dominated by renewable energy and supported by battery energy storage. We believe that energy demand should double in the same period.
