

Guernsey storing power

What is Guernsey Electricity?

Guernsey Electricity was adopted as the trading name in 1993 and became Guernsey Electricity Ltd in 2001 following commercialisation. Guernsey Electricity is the electricity supplier in Guernsey. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe, giving a secure, reliable and affordable source of energy.

Will Guernsey Electricity invest in a new power station?

It allows Guernsey Electricity to invest in new diesel generators for the power station and investigate a new cable from France to Guernsey. Mr Roffey warned that unless the States made a decision on the future location for Guernsey's inert waste, there would not be space on the reclaimed land at Longue Hogue for a new power station.

Will Guernsey move power station from the bridge to Longue Hogue?

Guernsey Electricity (GEL) said it was open to moving the power station from The Bridge to Longue Hogue. The move was suggested by the island's Chief Minister, Deputy Peter Ferbrache, during a debate on the States electricity strategy. GEL's CEO, Alan Bates, said moving part of the power station to Longue Hogue formed part of its plans.

Will Guernsey's Electricity strategy be debated in July?

Guernsey's electricity strategy is expected to be debated by politicians in July. Follow BBC Guernsey on Twitter and Facebook. Send your story ideas to channel.islands@bbc.co.uk. The current deal for electricity supply with French energy supplier EDF is set to run out in 2027.

How do I contact Guernsey power station?
