

Guinea rainbow solar

Why do we need solar power in Guinea?

to exploit Guinea's solar power potential in order to diversify the country's energy mix and increase the availability and reliability of power.

What is the first grid-connected solar PV array in Guinea?

The solar energy facility will be the first grid-connected solar photovoltaic (PV) array in Guinea. The project is being developed by InfraCo Africa with the support of Aldwych Africa Developments Ltd, in partnership with experienced French solar PV developer, Solvéo Energie S.A.S, a subsidiary of Solvéo Developpement.

How khoumaguéli solar plant will benefit the National Grid?

The combination of hydro and solar energy will help in maximising delivery of renewable energy to the national grid. The Khoumaguéli Solar plant is expected to mitigate against the impact of fluctuating rainfall on hydro power generation at the Garafiri plant.

Who is developing a solar PV project in Africa?

The project is being developed by InfraCo Africa with the support of Aldwych Africa Developments Ltd, in partnership with experienced French solar PV developer, Solvéo Energie S.A.S, a subsidiary of Solvéo Developpement. The companies bring complementary skills and knowledge to the project.

What does the PPA sign mean for the khoumaguéli solar project?

"The PPA signing is a key milestone for the Khoumaguéli Solar project, which will deliver reliable, affordable power to Guinea's homes and businesses.

What is the electricity rate in Guinea?

Guinea has a national electrification rate of 35.4%. Guinea's electricity supply is largely derived from hydropower, which can be susceptible to seasonal fluctuations in rainfall: 84% of businesses report power outages causing financial losses equivalent to about 4.7% of annual sales.
