

Aalborg CSP is a Danish renewable energy specialist mainly designing solutions based on concentrated solar power (CSP) technology. The company's main office is located in, Aalborg, Denmark, and they have offices in Spain, the United States, Kenya, Australia and Indonesia. [1]

Aalborg CSP is a Danish renewable energy specialist mainly designing solutions based on concentrated solar power (CSP) technology. The company's main office is located in, Aalborg, Denmark, and they have offices in Spain, the United States, Kenya, Australia and Indonesia. Aalborg CSP has participated in projects mainly in Spain, but also in Turkey, Norway and Russia. The most current proj...

Aalborg CSP places strong focus on R& D (Research and Development) and continuously walk new paths to create and innovate leading-edge technologies and solutions as well as to optimize and/or retrofit existing systems.

Aalborg CSP A/S is a leading developer and supplier of innovative, renewable technologies with the vision Changing Energy aiming at changing the way energy is produced and stored today....

Since 1988, Aalborg CSP has utilized its immense expertise within design and delivery of boilers, renewable energy technologies and energy storage. Thereby, we have a deep understanding ...

Aalborg CSP is leading developer and supplier of concentrated solar power (CSP) systems and technologies. Our globally recognised solutions for CSP power plants are based on more than 25 years of experience with traditional steam boilers uniquely adapted to the CSP market requirements for high availability and reliability.

Aalborg CSP is leading developer and supplier of concentrated solar power (CSP) systems and technologies. Our globally recognised solutions for CSP power plants are based on more than ...

Since 1988, Aalborg CSP has utilized its immense expertise within design and delivery of boilers, complex systems, renewable energy technologies and energy storage. Thereby, we have a deep understanding of individual energy needs, technology- and system integration as well as optimization with key competences such as performance modelling and ...
