

What does the Guyana Energy Agency do?

The Guyana Energy Agency is responsible for overseeing feasibility studies for the integration of renewable energy programs in Guyana and has regulatory oversight over certain aspects of the energy industry, in addition to the Ministry of Public Works.

Does Guyana have a potential for hydropower?

Guyana has significant potential for hydropower, like its neighbor Suriname which has successfully developed hydro power programs. Renewable energy is viewed as a potential solution by the GoG to reduce the cost of power and provide reliable electricity.

How many solar home energy systems are distributed in Guyana?

GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

Will Guyana decouple economic growth from fossil fuels?

(Georgetown) February 05, 2024 - The Guyana Energy Agency (GEA) has recorded notable milestones from energy projects undertaken in 2023 as Guyana pursues important steps to decouple economic growth from using fossil fuels for electricity generation and harness its low-carbon resources.

Is offshore wind a viable option in Guyana?

Guyana's geographic location makes offshore wind a viable alternative for renewable energy production. However, current regulatory hurdles are likely to stymie investment in this technology in Guyana.

What did the GEA do for Guyana?

These advancements not only addressed rising electricity demand, but also expanded renewable-energy access across local communities. The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana.

TRAC, founded in Scotland in 1999 and initially headquartered in Aberdeen, underwent significant growth and diversification over its first decade. In 2009, the organisation reorganised into a group of companies, leading to the establishment of TRAC Oil & Gas Ltd, focusing specifically on oil and gas operations.

4 · Guyana has emerged as a model for balancing economic development with environmental stewardship. Showing how the two goals need not conflict, Guyana is both capitalizing on its recent oil discoveries while also being a ...
