

Item 1 of 2 Chinese President Xi Jinping shakes hands with Syria's President Bashar al-Assad in eastern Hangzhou city, in this handout picture released by Sana on September 22, 2023, Syria.

During that visit, the two countries established the Syrian-Chinese Business Council, which is intended for cooperation in science, agriculture, telecommunications and energy.

And it was growing warmer. The Syrian leader's Hangzhou visit was his first official trip to the country in almost two decades. During this trip, China pledged to help al-Assad with Syria's ...

While Syria is a relatively small oil producer, its revenue is pivotal to the Assad regime. In 2008 and 2009, state Chinese energy majors Sinopec Corp, Sinochem and CNPC invested a combined \$3 billion in Syria, spurred by a call ...

Energy in Syria is mostly based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. There is high reliance on fossil fuels for energy in Syria, and electricity demand is projected to increase by 2030, especially for industry activity such as automation. However, conflict in Syria has caused electricity generation to decrease by nearly 40% in recent years due to plant destruction and fuel shortages. Electricity access in daily life for Syrians has also been ...

No one discusses this, but the loss of Syria is very painful for China - since the middle of last year, Xi Jinping began to directly build relations with Bashar al-Assad, invited him to Hangzhou - for Assad it was an unprecedented breakthrough in diplomacy. Syria itself is a player close to Iran, which often has Chinese interests behind its back.
