

Hesp solar Mauritania

Who is Hesp solar?

HESP Solar - Building High-Performance Solar Energy Systems Industry-leading solar financier and PPA provider specializing in commercial, industrial, and municipal clean energy investments.

How many solar panels does Mauritania produce a year?

The facility is responsible for 10% of Mauritania's grid capacity. It generates 25,409 megawatt-hours of renewable electricity per year and displaces approximately 21,225 tons of CO₂. The plant's almost 30,000 solar panels, manufactured by Masdar PV, provide electricity to more than 10,000 houses in Nouakchott.

Can Mauritania generate low-cost electricity and hydrogen through electrolysis?

Renewable Energy Opportunities for Mauritania finds that the country could deploy these resources at scale to generate low-cost renewable electricity and hydrogen through electrolysis.

Does Mauritania have a pipeline of renewable hydrogen projects?

Mauritania currently has the largest pipeline of renewable hydrogen projects to 2030 in sub-Saharan Africa. However, successfully implementing these projects is conditional on attracting sufficient investment, which in turn depends on reducing risk by securing demand from foreign offtakers.

Could renewable generation capacity improve Mauritania's mining operations?

The report's analysis finds that expanding renewable generation capacity in Mauritania could improve the sustainability of mining operations, which currently represent close to a quarter of the country's GDP. These operations are energy-intensive, and mines currently rely predominantly on fossil fuels for their electricity supply.

Could Mauritania's high-quality wind and solar resources be a catalyst for economic growth?

The sustainable development of Mauritania's high-quality wind and solar resources could serve as a catalyst for the country to achieve its vision of strong and inclusive economic growth, according to a new IEA report published today.

Defendant HESP Solar ("HESP") is in the business of assisting clients with solar energy systems, and Defendant Abe Grohman ("Grohman") is HESP's founder and CEO. Plaintiffs Ralph Jones ("Jones") and Philip Pietrafeso ("Pietrafeso") were employees within the business development department of HESP from November of 2014 through July 19, 2019 ...
