What is a home battery backup system?

Home battery backup systems,like the Tesla Powerwall or the LGES 10H and 16H Prime,store energy,which you can use to power your house during an outage. Batteries get that electricity from your home solar system or the electrical grid. As a result,they're much better for the environment than fuel-powered generators.

Do you need a backup power supply?

It's never fun to have your power suddenly go out, especially when you're in the middle of something important. If you deal with such situations regularly, it's time to consider getting a reliable backup power solution. There are two main options that can help provide a steady power supply; home batteries and generators.
