

What is Honduras' energy mix?

In 2021,Honduras' energy mix was led by oil,constituting 52.3% of the total energy supply,followed by biofuels and waste at 33.7%. Modern renewables,which exclude traditional biomass practices like burning wood or agricultural residues,accounted for 13.7%,while coal made up just 0.3%.

What type of energy is used in Honduras?

Solar photovoltaic (PV) energy followed at 18.9%,with wind powerat 12.9%,and geothermal energy at 5.8%. Due to the diversity of the Honduran landscape,the potential for wind development varies considerably. A 100 MW wind project was built in 2012.

Does the Inter-American Development Bank support energy projects in Honduras?

Currently, the Inter-American Development Bank is contributing funds and assistance to the following projects in the energy sector in Honduras: An Energy Sector Support Loan supported through a US\$29 million credit approved in September 2008. This project will finance priority investments in transmission and support a program for reducing losses.

What type of power plugs are used in Honduras?

In Honduras the residential power plugs and sockets are of type A and B. The standard voltage is 120 V and the standard frequency is 60 Hz. In Honduras,there is great potential in untapped indigenous renewable energy resources. Due to the likely long-term trend of high oil prices,such resources could be developed at competitive prices.

Does Honduras need a 'energy Emergencia'?

Access to electricity in rural areas needs to be improved. In June 2007,the president of Honduras,Manuel Zelaya,declared an "energia emergencia". An Intervention Board (Junta Interventoria),headed by the Minister of Defence and the Minister of Finance,was temporarily put in charge of ENEE to address the crisis.

Does Honduras have solar power?

Honduras has a large potential for solar photovoltaic generation. In fact,it is a practical solution for servicing energy-isolated rural communities. In 2007,there were about 5,000 individual Solar Home Systems,with an average size between 30 Wp and 50 Wp,which makes up for a total capacity of approximately 15 to 25 kW of power.

Ankoatra izany, ny fivarotana sy ny fisakafoana any ivelany dia tsy lafo ihany koa. Afaka mankafy vokatra vaovao, hena ary hazan-dranomasina ianao nefa tsy manimba ny banky. Ny fisakafoana any amin'ny trano fisakafoanana eo an-toerana dia mora ihany koa, mamela anao hiaina ny tsiron'ny sakafo honduranina nefa tsy mandany vola.
