Reykjavik, Capital Region, Iceland, situated at a latitude of 64.1498 and longitude of -21.9024, experiences varied solar energy generation potential across different seasons due to its position in the Northern Temperate Zone summer, the city can harness an average of 4.64 kWh per day per kW of installed solar capacity, while in spring this figure ...

At Solar Sovereign, we are thrilled to unveil our latest partnership with AIONRISE, the esteemed solar panel manufacturer located at 80 Ilia Chavchavadze Avenue, Tbilisi, Georgia. With a shared commitment to innovation and sustainability, this collaboration marks a significant stride towards a brighter, greener future.

Iceland has long been known as an ideal location for many energy-intensive companies, thanks to its affordable and abundant power springing from its natural geothermal and hydro sources and Landsvirkjun, the National Power Company of Iceland. One Silicon Valley startup has taken notice, and recently announced plans to build a silicon solar factory in Iceland.
