

Intersect battery storage Guatemala

Where is intersect solar & storage located?

OAKLAND, Calif., November 14, 2023 - Intersect Power, LLC ("Intersect Power" or "Intersect") today announced the commercial operation of its Oberon Solar + Storage project, located in Riverside County, California. The Oberon project generates 679 MWp/500 MWac of reliable solar...

When will intersect power's solar and storage modules be deployed?

The modules will be deployed in Intersect Power's solar, storage, and green hydrogen projects coming online across the United States in 2025 through 2027. Investment will provide significant capital to accelerate the build-out of Intersect Power's clean energy platform.

What does intersect power do?

Intersect Power is expanding on its base portfolio of 2.2 GW of operating solar PV and 2.4 GWh of battery storage in operation or construction to include growth in grid-tied renewables, battery storage, and co-located power facilities for large industrial loads, including data centers and e-fuels.

Is intersect power a good company?

Intersect Power received honorable mention in Fast Company's World Changing Ideas awards in the Sustainability category for its approach and delivery of clean energy infrastructure. Intersect Power has ranked 4th on Forbes' list of America's Best Startup Employers 2024.

Founded in 2016, Intersect Power has a base portfolio of 2.2 GW of operating solar PV and 2.4 GWh of storage in operation or construction across Texas and California.. The company's business plan includes growth in grid ...

The rest will be used for solar and energy storage projects scheduled to come online in 2028-2030. "This partnership is the foundation of one of the largest and fastest ...

Intersect's portfolio features 2.2 gigawatts of solar projects that are already operating, and 2.4 gigawatt hours of storage being operated or built. The company was ...
