

What is Iraq's solar energy strategy?

Iraq's solar energy strategy should be based on attracting foreign direct investments with strong commitment to diversifying its energy mix and to become energy independent bolstered by its willingness to collaborate with international array of local and foreign partners. Iraq's path forward is not, however, free of potential pitfalls.

Does Iraq need solar energy?

Although Iraq tends to promote the country's solar energy in two ways: Utility-scale PV units could lead to a reduction in burning of oil and gas, and rooftop solar panels would help individual households reduce their own dependence on "expensive and polluting neighborhood generators". However, there are a lot in between of untapped distributed

Could a 'OSC' be a solution to Iraq's solar energy crisis?

The Iraqi Ministry of Electricity has been aiming at increasing the share of renewable energy in Iraq but was faced with several challenges including the contractual process for utility scale solar energy. The OSC are a potential solution that could be tailored to the Iraqi context.

How many solar power sites are there in Iraq?

In July 2019, Iraq's Ministry of Electricity invited independent power producers to participate in developing seven PV solar power sites with a combined capacity of 755 megawatts (MW) in the range between 30 MW to 300 MW. Many local and foreign developers saw the announcement as a move forward in an attempt to diversify the country's energy mix.

Is the Sun a good source of energy for Iraq?

An important day for Iraq in its journey towards green energy. One of the essential tools Iraq has in its fight against climate change is the infinite potential of the sun as a source of energy.

How can small and medium scale solar be used in Iraq?

solutions of small and medium scale solar, which are more than rooftop but less scaled than utility scale such as distributed generation, which has not been addressed so far in Iraq, and could participate in relieving the overload on the national grid, achieve de-centralization, create jobs, develop SMEs, reduce electricity bills on the long-term.

The Solar & Storage Live Awards returns in 2025 for the thirteenth year! We're excited to get everyone together to celebrate quality and excellence in the solar and wider energy industry. Details for the 2025 Awards will be announced soon.

The Conference Solar & Storage Live Cape Town is made up of 3 tracks, packed with the latest and most innovative content. From keynote presentations, practical case studies and country spotlights to interactive
