Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

Once built, the solar plant will extend its supply power from the Vatican radio station to the entire 825 people living in the city. The city only produced about 0.0000443% output of carbon emission in 2022 but the Pope is eager to transition successfully to encourage the development of sustainable models in other countries.
