Will a lithium-ion battery energy storage system be installed in Cote d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Cote d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Why did Ivory Coast build its first solar power plant?

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic solar power plant, with a capacity of 37.5 MWp, spread over 69,440 550 Wp solar panels and 168 inverter-strings of 250 kVA.

Who builds a solar power plant in Ivory Coast?

RMT builds a 37.5 MWp solar power plant and installs ... Boundiali photovoltaic solar power plant in northern Ivory Coast was built in partnership with the country's government, in particular CI-ENERGIES, and with financial support from Germany. It has been in operation since July 2023.

Is Bess a good choice for your solar or wind site?

Check local standards. As we continue to see investment in renewable energy, BESS will grow further in popularity and feasibility. Adding BESS to your solar or wind site can save money, improve reliability, and have positive impacts on the environment.

BESS: unlocking the potential of renewable electricity. Electricity is increasingly being generated from renewable sources - solar, wind, geothermal, bioenergy and hydropower - but their ...
