Nasa 50 pampublikong paaralan ang target malagyan ng solar panels ng Quezon City Government. Kapag solarized na ang mga gusali, makababawas ito sa gastos ng mga paaralan sa kuryente at mas maisusulong ang paggamit ng renewable energy. Mababawasan din ang kanilang carbon emission na nagpapalala sa climate change.

As noted by City Engineer Dale Perral, excess energy can be sold to Meralco, the city's electrical power utility. This could lead to a return on investment for Quezon City. The project is part of a larger effort to make Quezon City more sustainable by installing over 1,000 solar panels in city-owned public hospitals and schools.

The solar panels could also be revenue-generating as Perral said that unused energy or excess supply can be sold to Meralco.. The city plans to install over 1,000 solar panels in other city-owned ...
