

Jersey solar batteri

Could a solar farm boost jersey's energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". A solar farm in Jersey could power 17% of the parish's homes if planning is approved, electricity bosses say.

Will Jersey's 'island plan' boost energy security?

Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". The firm said the proposal - which is one of several sites it hopes to build by 2026 - supported the government's Island Plan and energy policy.

Will a ground-based solar installation at Mont Fondon increase Jersey's energy security?

Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon. Bosses said the plans for the 2.7 hectare site, meant electricity would be returned to the grid in a process which would "increase Jersey's energy security".

Will St Clement & St John 'build Jersey's energy sovereignty?

Referencing a ground-mount solar installation in St Clement due to produce renewable energy in 2025, and a second project in St John, he said they were taking positive steps to "build Jersey's energy sovereignty, diversifying our energy sources and promoting the local economy".
