

Jersey solar edge backup

What is the SolarEdge home backup interface?

The SolarEdge Home Backup Interface enables full or partial home backup when the grid is down. The SolarEdge Home Backup Interface connects to the SolarEdge Home Hub inverter and SolarEdge Home battery, automatically controlling disconnection of house loads from the grid during power failures to provide backup power to full or partial home loads.

What if I combine the backup interface with SolarEdge Home Hub inverters?

When combining the Backup Interface with the SolarEdge Home Hub Inverters, and SolarEdge Home Batteries in the event of grid interruption you can provide homeowners with backup power. Supporting multi-inverter backup for up to 3 SolarEdge Home Hub Inverters*. Enjoy up to 30kW backup power during the day and 15kW at night

When should I use SolarEdge home batteries?

SolarEdge home batteries can be used when rates are high or at night and during outages. They integrate with both single phase and three phase inverters, enabling full or partial home backup when the grid is down. Need help? Elevate Your Home's Energy Independence with SolarEdge Home Batteries.

SolarEdge Home Backup Interface, Three Phase. BI-EU3P. for use with the SolarEdge Home Hub Inverter, Three Phase. 1. 2. Mounting the Backup Interface. 1. Select an installation location. Make sure you have enough space between the Backup Interface and other objects to securely access all its interfaces. 2.
