Who owns Tilt Renewables Ltd?

PowAR and Mercury NZ have entered into a Scheme Implementation Agreement to acquire 100% of NZX- and ASX-listed Tilt Renewables Ltd for an all-cash consideration of NZ\$7.80 per share or NZ\$2.9 billion. Under the transaction, PowAR will take ownership of Tilt's Australian business and Mercury NZ will take ownership of Tilt's New Zealand business.

What is Tilt Renewables?

August 2021: Tilt Renewables scheme of arrangement was implemented with the New Zealand assets purchased by Mercury NZ and the Australian assets by Powering Australian Renewables Fund - itself a consortium of AGL Energy, QIC Global Infrastructure Fund and the Australian Government's Future Fund.

What happened to Tilt Renewables?

October 2016: Tilt Renewables was demerged from Trustpower, with Tilt Renewables taking ownership of all operational wind assets and the wind and solar development pipeline, and Trustpower retaining all hydro assets. Tilt Renewables was dual listed on the ASX and NZX with the ticker TLT.

Is Tilt Renewables listed on the ASX & NZX?

Tilt Renewables was dual listed on the ASX and NZX with the ticker TLT. December 2019: Snowtown Wind Farm (Stage 2) was sold to Palisade Investment Partners.

Did Powar take over Tilt Renewables?

The takeover was successful in August 2021. PowAR took over the Australian assets and operations of the former Tilt Renewables, making it the largest private developer and generator of wind and solar electricity in Australia. The combined Australian organisation was subsequently renamed back to Tilt Renewables.

Does Tilt Renewables have a new Scheme Implementation Agreement?

"Tilt Renewables has agreed to a number of amendments to the original scheme implementation agreement, the effect of which is to remove Tilt Renewables' ability to progress any competing proposal that may be presented," the company told the market on Friday.
