

Lesotho battery enersys

Does EnerSys sell batteries?

EnerSys also manufactures and sells related DC power products including chargers, electronic power equipment and a wide variety of battery accessories. Their battery products cover a broad range of sizes, configurations and electrical capabilities. EnerSys, in 2000, acquired Yuasa's industrial division. The Hawker Group merged with EnerSys in 2002.

Who is EnerSys?

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide.

Does Lesotho have electricity?

Prior to LEC coming to fruition, electricity provision in the country was under the control of the Government of Lesotho. The aforementioned service was provided by a small coal-fire generating plant, used to supply a limited number of domestic customers located within the Maseru West and Old Europa areas.

What does EnerSys do?

EnerSys is a stored energy systems and technology provider for industrial applications. The company manufactures reserve power and motive power batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure systems.

Is EnerSys a leader in thin plate pure lead batteries?

With the recent NorthStar acquisition, EnerSys has solidified its position as the market leader for premium Thin Plate Pure Lead batteries which are sold across all three lines of business. More information regarding EnerSys can be found at

What makes NEXSYS ion batteries unique?

Combining the latest lithium-ion chemistry with cost-effective modularity, NexSys® iON batteries are engineered with sustainable Nickel Manganese Cobalt (NMC) large format prismatic cell chemistry that has been heavily researched and built to deliver high energy capacity in a smaller footprint.
