

Lesotho olympus power ltd

We develop commercial power purchasing agreements, provide accurate forecasts of power usage and long term savings, and advise on finance options before installing renewable energy technology that works for you.

Olympus Power also provides utility scale battery storage that can either be standalone or co-located with renewables, such as solar and wind. The BESS imports grid power at times of low cost, and exports under contract with National Grid and the DNOs, providing balancing services for the grid, helping its stability. ...

Olympus Power has an installation solution that allows the use of solar panels at decommissioned landfill sites. Ground mounted "solar farms" can generate clean energy from the otherwise unusable land. In Warwickshire, we were commissioned by Veolia to install a ground-mounted solar farm at their Ling Hall site.

Project Manager at Olympus Power Ltd · I am a domestic project manager in solar.

I hold a MSc in Applied Marine Science (first class), and a BSc (Hons) degree in Physical Geography and Geology (Upper) 2:1, accredited by the Geological Society, both from the University of Plymouth.

During my time at university as an undergraduate I achieved a ...
