

Lg energy storage Morocco

Will LG Energy Solution produce lithium hydroxide in Morocco?

The South Korean battery manufacturer LG Energy Solution has signed a letter of intent with the Chinese Yahua Industrial Group to produce lithium hydroxide in Morocco. The location was a strategic choice. Details on the schedule and volume of the planned lithium hydroxide production by LGES and Yahua in Morocco are unknown.

Does lges have a lithium hydroxide supply chain in Morocco?

Details on the schedule and volume of the planned lithium hydroxide production by LGES and Yahua in Morocco are unknown. However, Korean media reference LGES representatives saying the company wanted to further strengthen its supply chain for lithium hydroxide with the letter of intent. But why Morocco?

Will lges offer low-cost LFP batteries to Europe?

LGES aims to offer low-cost LFP batteries at the future plant to supply the European market. Rabat - South Korea's LG Energy Solution (LGES) is considering Morocco as a new site for a production plant for Electric Vehicles (EV) batteries to export to Europe.

Why is lges establishing operations in Morocco?

The push to establish operations in Morocco aligns with LGES's strategy to offer low-cost LFP batteries, which are in demand due to their affordability and safety. This decision comes in response to the European Union's decision in June to impose tariffs of up to 38% on electric vehicles imported from China.

Will lges build a battery plant in Arizona?

On March 24, LGES announced it would invest KRW7.2 trillion (\$5.4 billion) to build two battery production facilities in Arizona. One plant will produce cylindrical batteries for EVs while the other will manufacture LFP pouch-type batteries for energy storage systems. The facilities will have a combined annual production capacity of 43GWh.

Where does lges buy lithium?

In recent years, LGES has concluded numerous binding orders for lithium and several MoUs. In Germany, for example, the company wants to purchase lithium from Vulcan Energy from the Upper Rhine Gra. Still, the South Koreans have agreed with Sigma Lithium from Canada, which extracts its lithium in Brazil.
