The increasingly strong group already has offices in Italy, Lithuania, Estonia, Germany and Norway in addition to numerous partners around ...

The temperature coefficient of a similar P-type module is -0.35%/°C while that of N-type is modified to -0.30%/°C. This means the power generation performance is particularly outstanding at high temperature. Omnis Solar Power's N type module power will increase with the better temperature coefficient (0.75% higher compared with PERC).

Omnis Solar Power carport kit is designed to utilize new or existing parking areas and generate power. Our inventive design provide both solutions: solar energy generation and an elegant substitute carport to protect the vehicles
