Lithuania solar panel in karachi

I have decided to install solar panels in my home in Karachi. My bills in summers last year used to be around 40k-50k. I can only expect it to increase with the rising electricity costs. I went through some solar posts on Reddit and Facebook and I find it difficult to understand all the terminology and concepts around solar panel installation.

Solar is an investment unlike a car. First of all solar, connected to net metering can reduce the electricity bills significantly which is how you recover the cost of solar (and you can recover that initial cost within 2-4 years depending on the electricity price increase). Also electricity prices will keep going up especially in Pak.
