Does Luma energy have a power grid in Puerto Rico?

The contract under which LUMA Energy operates the power grid in Puerto Rico was signed after a bid in 2020. In the bid, five different companies participated and only four submitted business proposals. The \$1,500M contract is set to last for 15 years and can be renewed if both parties agree.

Who owns Luma energy?

The company is a joint venture between Houston company Quanta Services Inc. and Alberta, Canada company ATCO. Both companies have an equal share in LUMA, which was built with the express purpose of managing Puerto Rico's power grid. LUMA Energy is currently presided by CEO Wayne Stensby.

What does Luma do for Puerto Rico?

San Juan, Puerto Rico, September 26, 2021 --During its first 100 days operating Puerto Rico's electric power transmission and distribution system, LUMA has laid a solid foundation for the transformation that will deliver customer-centric, reliable, resilient, sustainable electricity at reasonable prices to all Puerto Ricans.

Will Luma transform Puerto Rico?

This transformation will be a decade-long endeavor that will invest billions of dollars into the Puerto Rican economy and give the people of Puerto Rico a 21st century electric power system," said LUMA President and CEO Wayne Stensby. LUMA is a customer-centric company that provides its 1.5 million customers multiple ways of receiving service.

Why does Puerto Rico need electricity?

Every day we depend on electricity. We need it to run lights on the roads, produce goods and services, and keep the economy moving. Our job is to provide you with safe, strong, reliable electric service. The transformation of the electric grid, coupled with better services and rapid response, will allow us to live in a better Puerto Rico.

How many customers does Luma have?

LUMA is a customer-centric company that provides its 1.5 million customers multiple ways of receiving service. The company deployed new service channels, including the MiLUMA mobile app, which more than 360,000 customers are using to connect with LUMA.
