

Malta sunflex solar panel

Who are authorised partners of SunPower PV modules in Malta?

Renergy Limited are the authorized partners of SunPower PV modules in Malta. SunPower panels come with 25 years warranty on product and performance. For more information and specifications of the SunPower panel click [here](#).

Why should you choose SunPower solar panels in Malta?

SunPower solar panels in Malta are the best in Malta and the world. They can help you reduce your electricity bills and carbon footprint while providing a sustainable lifestyle for years to come.

Which solar panels do you use at Panta?

At Panta, we use top-of-the-market solar panels that are extremely efficient and require minimal roof space. We opt for Huasun solar panels and Sungrow inverters. Both companies are renowned worldwide as the leading manufacturers of products for electricity generation from solar energy.

Are solar panels a good investment in Malta?

We can't stress enough how good of an investment home and commercial solar systems are in Malta. The island has an extremely high sunshine yield, and the right solar system can drastically reduce your electricity bills.

Who manufactures SunPower solar panels?

SunPower solar panels are manufactured by SunPower Corporation. SunPower Corporation is an American energy company that designs and manufactures crystalline silicon photovoltaic cells, roof tiles and solar panels based on a all-back-contact solar cell invented at Stanford University.

How does Panta support my solar system?

From tailoring the design of your system to installation, maintenance and after-sales service, Panta will support you throughout the lifespan of your solar solution. Under certain conditions, you may also be eligible for a government subsidy when purchasing a solar electricity generation system.

And they do not describe it even by references. The two legitimate approaches I have seen from other references are silk-screen printed monocrystalline on flexible substrate (not commercial yet) and smaller rigid cells in flexible panels (maximum bend 25%.) The illustrations of the sunflex panels being bent appear to show more than 25%.
