

Mangarrufa power solutions Saint Lucia

How much electricity does Saint Lucia have?

LUCELEC has an installed electricity generating capacity of 78.4 megawatts(MW),with peak demand of 60 MW. Most of the island's energy is produced from imported diesel fuel that powers electrical generators. Saint Lucia's electricity rates are more than triple the U.S. average.

Is Saint Lucia reliant on fossil fuels for electricity generation?

Like many island nations,Saint Lucia is almost 100%reliant on imported fossil fuels for electricity generation,leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity. Electricity Sector Data

Can a biomass plant be built in Saint Lucia?

A biomass plant requires large tracts of agricultural land and is not economically feasible. Rivers and waterfalls on Saint Lucia do not have a base flow rate sufficient to power water turbines. The most promising hydroelectric spot is the Roseau Reservoir,which can supply 150 kilowatts (kW).

How much geothermal potential does Saint Lucia have?

The volcano that sits in the middle of Saint Lucia provides vast geothermal potential. Conservative estimates indicate more than 30 MWof technical geothermal potential; others estimate 170 MW. Estimates also show that development of this geothermal resource would likely be economically feasible.

The Climate Adaptation Financing Facility (CAFF) is a funding mechanism within the Saint Lucia Development Bank (SLDB) designed to offer climate change adaptation loans which are: (a) affordable, (b) equitable across socio-economic and gendered lines and (c) which will provide incentives for pre-emptive vulnerability reduction.

Surrounded by the Caribbean Sea and the Atlantic Ocean, the Winward Island of St Lucia is a beautiful destination in the in the Caribbean. We explored the entire island on our two-week adventure, from the twin volcanic peaks and nature trails on the west side to the to Mamiku botanical garden and famous Grand Anse Beach on the east side.

6 · Get the latest Power Play results and compare your numbers and the current Power Play winning numbers to find out if you became one of the latest winners.

To become the leader by providing high quality and cost-effective complete Renewable Energy and Energy Management systems and solutions that will provide energy security, reliability, and dependability, off and on the grid, competitive electric power to St Lucia and the region.

The top prizes offered for Power Play are far from being the world jackpot records, but all of them are good for the locals. Typically, the top-winning amount begins at EC\$1,500 and continues to increase incrementally until it reaches EC\$150,000.. Usually, full matches occur every 3-4 months, so the top awards rarely exceed EC\$150,000.

Testimonials Dania Eugene "I have been at KM² Solutions for 5 years and time has gone by fast! And I believe there are many good years still to come.
