Here you will find media for use free of charge, exclusively in connection with reporting on the ENERPARC Group. In the event of publication, we would be pleased to receive a specimen copy or a reference.

The Trundle and Peak Hill projects were their first projects constructed in the Australian market, so it was important for Enerparc to use a reliable contractor to manage and deliver the main scopes of these projects.

In its function as project developer, technical adviser, general contractor as well as plant manager and energy trader, ENERPARC offers individualized services for the planning, construction,...
