Why did jtpv launch 'journey to next' new product launch event in Nanjing?

On November 16th, JTPV successfully hosted the "Journey to Next" new product launch event in Nanjing. As "The Pioneer of N-type Solar Cell", the company unveiled the "MoNo" series N-type high-efficiency solar cell products, showcasing its formidable strength in TOPCon research and development.

What's new at jtpv?

General Manager Zhang Manliang announced that JTPV has achieved a pioneering large-scale production of N-type TOPCon solar cells, leading the industry in scale and yield. The new "MoNo" series integrates cutting-edge technologies, positioning its performance at the forefront of the industry.

Why is jtpv a leader in the Solar Revolution?

Looking ahead, JTPV is committed to continuing its leadership in the solar revolution through technological innovation, contributing to the establishment of a more robust and sustainable green future.

Who is Jietai solar?

Jietai New Energy Technology Co., Ltd. (referred to as "Jietai Solar"), is a wholly-owned subsidiary of Hainan Drinda New Energy Technology Co., Ltd., listed on China's A-shares market (Stock Code: 002865. SZ). As a high-tech enterprise, Jietai Solar specializes in the R&D, design, manufacturing, and sales of high-efficiency solar cells.

How Jietai solar has expanded its production capacity in 2022?

In 2022, Jietai Solar expanded its production capacity based on technological advantages, establishing new N-type solar cell production bases in Chuzhou and Huaian. As of year-end 2023, the company boasted a 40GW N-type production capacity. Products can be customized to satisfy customers' needs with great efficiency.
