

Does Terna have a MACSE target?

This has reduced the need for procurement of utility storage capacity mainly in the South, resulting in lower MACSE volume targets. However, Terna still has a substantial procurement target of 50 GWh of storage capacity by 2030 under the MACSE scheme.

When will Mytilineos Commission a Bess system?

Mytilineos expects to commission the units in the fourth quarter of 2022. The BESS systems are expected to provide grid services from 2023 through 2027. Terna's auction in December attracted 53 bidders offering just over 1.3 GW of fast reserve units, or six times more than what was requested. The round ended with contracts for 250 MW.

Does Terna have a storage capacity target?

However, Terna still has a substantial procurement target of 50 GWh of storage capacity by 2030 under the MACSE scheme. In Diagram 1 we summarise how storage flexibility will be key to support RES deployment (top panel) & Terna's target storage capacity volumes (bottom panel).

How many bidders participated in Terna & Mytilineos auction?

More than 53 bidders representing 117 fast reserve units with 1.3 gigawatts in total participated in the auction, of which Terna awarded 250 MW of contracts. Mytilineos was awarded approximately 20% of the capacity auctioned in the southern mainland and 20% in Sardinia.

Is Altea a Bess company?

Altea describes itself as a developer and EPC (engineering, procurement and construction) firm and recently discussed a separate 2GW pipeline of BESS it was selling in Italy with (Premium access). The company is also developing BESS projects in the ERCOT market in the US state of Texas.

How did Terna get 230mw?

Terna said the process was participated in by bidders offering six times the amount of capacity being tendered for. The pilot had launched with an expectation that around 230MW would be on offer, Terna received 1,327MW worth of bids, and eventually awarded contracts for 249.9MW.
