Will Mauritania get a big green energy project?

Image by GreenGo Energy () Danish renewable energy developer GreenGo Energy Group on Monday unveiled plans for a huge green energy project in Mauritania that will involve 60 GW/190 TWh of hybrid solar and wind generation and 35 GW of electrolysis capacity.

Does Mauritania have solar?

TOUJOUNINE - Solar Averaging seven days of rain a year, Mauritania's climate is ideal for solar and the country's first major development in the sector did not disappoint in this regard with 54,000 panels supporting 50 MW production capacity at Toujounine, on the northern outskirts of the nation's capital.

Does Mauritania have a green hydrogen industry?

Proximity to load centers in EU is an additional benefit," he said. The European Commission recently launched a new initiative to help Mauritania develop its green hydrogen industry. Last week, renewables developer CWP Global said it is making progress on a planned 30-GW green hydrogen development in Mauritania.

As a subsidiary of the Pupkewitz Group, Megatech is Namibia's leading electrical solutions partner. We have product specialists who can assist with professional advice and support in all ...

A key component of Megatech's business is electrification. Renewable Energy is complimentary to this when looking at the larger Southern African landscape as well as the local landscape in Namibia. A large portion of Namibia does not have access to the electrical grid, creating need for decentralized systems (including storage).
