

Project Scope: Design, Build, Finance, Operate and Maintain a 12.5MW land and rooftop solar project in 11 outer islands of Maldives. The aim of the sessions is to provide ...

Location: Maldives. This marine-grade, photovoltaics system is the world's first modular floating solar power plant at sea. It is composed of four identical platforms, and it was built to bring cost-efficient clean energy to a residential island in the Maldives. Land scarcity is a challenge that Small Island Developing States (SIDS) face.
