

Mld energy Bermuda

Who owns Bermuda Electric Light Company Limited (Belco)?

Bermuda Electric Light Company Limited (BELCO) is a wholly owned subsidiary of Liberty Group Limited. Liberty Group Limited is a Bermuda-based provider of energy and energy-related services, owned by Algonquin Power & Utilities Corp. (Algonquin). Algonquin is the parent company of Liberty Power and Liberty Utilities, collectively known as Liberty.

Who is Bermuda Electric Light Company?

In the 1950s, we decided against developing a tramway for the island and so removed the word "Traction" from the Company's name and became what we all know today as the Bermuda Electric Light Company Limited - BELCO. We embraced new technologies as we grew.

When did Belco start supplying electricity in Bermuda?

BELCO was incorporated in 1904 as the Bermuda Electric Light, Power & Traction Company (B.E.L.P.&T.), and started to supply electricity in Bermuda on 1 May 1908. The Company purchased its present site on Serpentine Road, Hamilton in 1909 and moved its operations there.

How much electricity does Bermuda use?

Large commercial organizations use about 40% of electricity produced. The standard voltage in Bermuda is 120 V and the standard frequency is 60 Hz AC. Flat, two-pronged plugs (Type A) are in use. All US and Canadian appliances work on the island, without voltage converters or adapters.

What is Bermuda's Integrated Resource Plan?

On July 26, 2019, the RA released Bermuda's first Integrated Resource Plan, which outlined the framework for Bermuda's energy requirements over the next 25 years. The IRP aimed to have 85% of Bermuda's power generated by renewable means by 2035.

Meld Energy's project will be able to meet up to 30% of the park's existing hydrogen demand. The developer is bidding for funding from round two of the government's Hydrogen Production Business Model, which aims to support up to 875 MW of hydrogen production and is expected to announce successful projects later this year.
