

Mobilize power solutions Sierra Leone

What is mobile power's pay-per-use battery sharing platform?

Mobile Power's pay-per-use battery sharing platform provides flexible and affordable energy access for sub-Saharan African households. MOPO Batteries are charged centrally and rented to customers in off-grid communities in Sierra Leone, Nigeria, Uganda, Zambia, the Gambia and Liberia.

What is mobile power?

Mobile Power have created a sustainable and commercial business model for their product which is already providing power to over 100,000 people across sub-Saharan Africa.

How does energy catalyst support mobile power?

Strategic and business support from Energy Catalyst has also enabled Mobile Power to demonstrate its business model to investors and partners, contributing to a successful Series A investment round. Is mobile power achieving a more equal workforce?

Mobile Power is aiming to achieve a more equal workforce with at least 50% female agents in the near future and recently launched its first all-female MOPO Hub in Sierra Leone. Support from Energy Catalyst has helped prove the operational potential of the pay-per-use battery sharing model.
