Universal Modular Battery Packs are available now! We use automotive industry best practices to create our modular battery packs, which includes OEM and proprietary components that we manufacture for the best consistency and durability.

With multiple outputs including AC/DC/USB outputs, the NITECORE NES500 has a large capacity of 518Wh and a high output of 500W. The modular battery pack and advanced battery management system (BMS) can maintain excellent stability and the best performance. The NITECORE NES500 offers pure sine wave outputs to support road trips, outdoor works, ...

This is **not** a UPS at all. It is an additional (expansion) battery pack for an XL model UPS. The model number essentially breaks down like this: SU = Smart-UPS + M = Modular + 48 = 48 volts + RM = rack mount + XL = eXtended Life (runtime) + BP = Battery Pack + 2U = 2 rack units high (or wide, when standing upright). Again, this is **not** a UPS.
