

In line with this objective, Monaco Energies Renewables has just acquired eight photovoltaic parks totalling a production capacity of 39 MW_{pec}, distributed in seven departments in the south of France.

Agir pour la sobriété et l'énergie de Monaco; Augmenter la production locale d'énergie renouvelable. Accompagne de l'équipe de la Mission pour la Transition Energétique, Marie ...

"The facilities, which are located in Cote-d'Or, Haute-Vienne, Landes and Gard, will generate a total of 65,000 MWh per year, or around 12% of the Principality of Monaco's electricity consumption." By the end of 2021, M.E.R. will own 15 photovoltaic power stations.

The aim is to invest in renewable electricity production assets outside Monaco. The Minister emphasised: "The reason we are seeking to develop or purchase green power stations ...

The aim is to invest in renewable electricity production assets outside Monaco. The Minister emphasised: "The reason we are seeking to develop or purchase green power stations abroad, primarily in France for the time being, is to increase the share of green electricity we import and to safeguard, over the long term, the cost of supplying ...
