

How can the European Union help Mongolia?

The European Union is committed to assisting Mongolia in strengthening the resilience of its economy by diversifying beyond the mining sector and reducing its vulnerability to external shocks.

What are the key projects in Mongolia?

Key projects include: Energy transmission line: The construction of a 220 km Choir-Sainshand double circuit energy transmission line will facilitate the integration of ongoing renewable energy projects into the grid, reduce energy losses, and improve intra-regional connectivity in Mongolia.

Is Mongolia a democracy?

Mongolia, a lower-middle-income, resource-rich democracy with a population of 3.3 million, is strategically landlocked between Russia and China. The nation demonstrates a strong commitment to democracy and human rights, yet it faces economic dependence on China and relies on Russia for its energy needs.

The European Union is committed to assisting Mongolia in strengthening the resilience of its economy by diversifying beyond the mining sector and reducing its vulnerability to external shocks. This support aligns ...

The European Union is committed to assisting Mongolia in strengthening the resilience of its economy by diversifying beyond the mining sector and reducing its vulnerability to external shocks.
