Today, we use solar energy in Denmark in two ways: in the form of rooftop solar panels that can produce heat and district heating, and solar cells that can produce electricity. Why is solar energy important?

Positioned as a Solar company in India, MYSUN has strong Solar rooftop services in Delhi NCR. All the MYSUN solar rooftop systems come with a 25-years solar service promise package. MYSUN's in-house team of veteran solar experts ensures its consumers to get the most out of their solar rooftop systems.

But at this point, Sun Run is not taking responsibility because my roof warranty is expired. But the panels still belong to Sunrun (I am still paying them off). And I cannot break contract to get rid of solar panels altogether. So I'm stuck in a messy situation and confused as what to do, as I haven't had solar panel experiences before.

Keep solar panel clean to ensure high efficiency and performance of your solar system and ensure that you do not leave panels with accumulated dust, fallen leaves and bird droppings. Use clean water for cleaning of the solar panels. Clean the solar panels before 10 AM or after 5 PM to ensure that the system generation is not adversely affected.
